Minden Kinettes Host Inter-Club Convention

The Kinetette Club of Minden were the hosts for this years Inter-Club Convention for Zone C District 8. The convention took place at Chateau Woodlands, when 80 Kinettes attended from Lindsay, Bowmanville, Port Hope, Bobcaygeon, Peterborough, Oshawa, Whitby.

Joan Fennell of the Minden Club was convenor for this special evening. The high-light of the night was the presentation of the Service Award Trophy to the Bowmanville Club. This trophy is presented annually to a club who contributes the most to their community. Lyle McKnight president of the Minden Kinsmen Club presented the trophy to Virginia Fairry vice-president of the Bowmanville Kinettes.

The entertainment for the evening was a medley of Folk Songs sung by six girls from the Haliburton High School. The Minden Kinettes modelled fashion of the last 100 years which was enjoyed by all who attended.

The Bobcaygeon Club will host the convention next year.

DOUGLAS ROBERTSON RECEIVES FLIRING LICENCE

Douglass Fletcher Robertson son of Mr. and Mrs. Mel Robertson of Minden received his commercial flying licence at Central Air Ways Toronto on June 3rd. He will try for instrument rating before taking a job with Air-Canada.

HODGSON CALLS FOR IMPROVED TAX SYSTEM FOR LOG INDUSTRY

"Improved taxing methods on forest based industries are definitely needed, and it has been left very late in the day to provide help to an Ontario based industry ownership," said R. Glen Hodgson M.P.P. during a recent address in the legislature.

"The saw milling industry of Ontario must have a revised taxing method applied by our different levels of government to it, or we will have some great costs, reflected in a vital part of our forest resources based industry becoming economically in trouble," he said.

The member for Victoria-Haliburton said one will find very few lumbering units remain as an industrial operation exclusive of ownership by a veneer company, or associated with a retail lumber dealing operation, and as such perform a secondary interest of the total operation.

The member said the federal government must review any freight rate structure in the light of

subsidation, which would allow any advantage to one part of the Canadian forest based industry at the expense and loss of the other which would be depressing to the competitive opportunity of this province.

Mr. Hodgson said the tax revenue from forest industry by all levels of government has been estimated to be 38 per cent provincial, 10 per cent municipal, and 52 per cent federal.

In conclusion the Victoria-Haliburton member said a better tax application to forest industries and a better programme of roads to the back of the forests to allow timber removal of the mature stands is needed.

"This is the policy for our forest reserves. This alone will assure a continuing supply for our mills. This will keep the Canadian-owned forest industry near the forefront on the markets we now hold. Without such economic improvement in line with today's base, we will find we lack sawmill timber resources in having mature stands to sustain the industry. We will have timber but it will be of the nature of the immature and over-aged," he concluded.

LAKES HERE STUDIED BY OWRC TO DETERMINE NUTRIENT-ALGAE LINK

Eight lakes on the Trent waterway are under study by the Ontario Water Resources Commission to help determine the potential of such lakes as municipal water supply sources.

The OWRC'S Division of Research is attempting to establish possible links between the chemical nutrients in the lakes and the type and quantity of algae which occur in these bodies of water throughout the year.

Presently a preliminary study, the program probably will be extended another two years if data collected by early 1968 indicates such a link exists, and that it can be determined using present methods, according to the OWRC.

Every two weeks, water and algae samples are taken from Kushog, Twelve Mile, Gull, Balsam, Sturgeon, Buckhorn, Clear and Rice lakes. Sampling probably will be on a monthly basis after freeze-up.

The Trent was chosen for the study because it is one of Ontario's largest river systems, it flows through various geographical areas, and the chemical and biological make-up of the lakes there vary.

Pictured above shows a few of the "California Cuties" who will be invading the Minden Ball Park, on Sunday, July 2. They will take on the Minden ball Club, and should put on a good performance, and be quite entertaining.

BUSINESSMEN'S ASSOCIATION HERE HAVE BIG YEAR PLANNED

The Directors of the Minden Area Businessmen's Association held a meeting Tuesday evening, June 13th., with much on the agenda for the coming year.

Not all topics were covered, so the Directors will meet again in two weeks time, Tuesday, June 27th., at 8:00 p.m.

The Association is heading into its second year, and from all reports the Association had a very successful year in 1966, their first in existence.

Last year the store hours were organized by the association, making it convenient for the summer tourists. Letters were written to council, concerning parking facilities and clean-up of alleyways. These were looked into and action was taken. Also the installation of a drinking fountain by the Minden Post Office was a worthy project of the association.

This year many more items will be undertaken by the Association making Minden a better place to live.

Here and There

with
FENWICK FINCH

Last Wednesday during a coffee break I learned something that both amazed me and also was disturbing. As taxpayers you should find it disturbing too.

Steve Toth as well as being in the Ontario Hydro's Public Relations department is a councilor at Burlington of some 65,000 residents. It was his experiences as a councilor that I found interesting. During the conversation Steve discussed the value of seminars and conventions that should be attended by members of the permanent Municipal Staff — such as enforcement officers, road overseers and more particularly the township clerks. Mr. Toth was enthusiastic about the results obtained when these employees were exposed to the ways other municipalities operated.

That was the interesting part — now for what I found disturbing. Our genial and proficient Clerk, Gord Bibby has never in his tenure of office attended one of these seminars or conferences. I would hate to think our council was so short-sighted or niggardly that they couldn't see the value of these meetings. I would rather think it is an oversight that will be corrected as soon as possible. The next time you bring down your budget why not throw in a few extra bucks and let our community find out what is going on in the Municipal world. Who knows, Gord might just pick up some ideas that could save the municipality some money. In any event, don't worry about the votes — I'm sure the taxpayers will go along with the idea and the small amount of money involved won't boost our taxes.

Just as a thought — this attendance at seminars and conferences should be mandatory for all employees with the idea of keeping them abreast of things in this fast-moving and technical age. What do you think?

* * * *

Now that the golfing season is with us Ken Currie was telling me about a game he was in that had an Anglican Minister as one of the protagonists. To put it bluntly the Reverend was a lousy golfer. One of the other members kept riding the Minister over his poor showing and you could see that the good gentleman was getting a little ruffled — but, owing to his profession he was limited in his remarks. After the game was over this character who had been giving the Minister such a hard time finished him off by saying — "sorry I gave you such a bad beating — how about another game next week?"

The Minister smiled, and said — "I'd be pleased to play you again — why not make it a foursome — bring your parents along and I'll marry them for you."

* * * *

We get mail. That unsigned letter saying the reader enjoyed the column but couldn't see the humour in the "nudest going over the fence story. Maybe since your imagination is so poor I should have added the word, 'male to 'nudest'. Even with your lack of imagination you can see the possibilities now?

* * * *

Another week gone by. Speaking of driving, and drivers, W.R. Curry of Haliburton sums it up this way — "Better to be late here than early in the hereafter." That should give you something to think about until we're around again next week.

Drive carefully — 'Im short of readers and I can't afford losing any.

Fenwick

KAWARTHA SUMMER THEATRE

OPENS JUNE 26TH — LINDSAY

Jack Creley as Charles Tupper, Hugh Websters as D'Arcy McGee, and the husband and wife team of Herbert and Angela Roland as John A MacDonald and Frances Tupper, will head the cast of "The First Falls on Monday" by Arthur Murphy of Halifax. This production will open the Kawartha Summer Theatre season on Monday, June 26th at the Academy Theatre in Lindsay, Ontario.

The play will be directed by Ted Follows who's production of "Arms and the Man" at the Academy Theatre last summer drew such unanimous praise.

In addition to the four actors already mentioned, the cast for "The First Falls on Monday" has Joyce Campion, Anne Anglin, Patrick Boxill, Kenneth Dight and Robert Aaron. Two members of the Lindsay Little Theatre are included, Wally Freschuk as Georges Cartier and Penny Arrill as Mrs. Tilley. The final member of the company is Robert Thompson of Richmond Hill, who won numerous mentions for his performance in the recently concluded Dominion Drama Festival.

Jack Creley and Hugh Webster are noted actors and directors both have starred on television, film and radio. Both have directed and appeared in revue, including "Spring Thaw"

Herbert Roland is a CBC Drama Producer. He directed the outstanding production of Macbeth and Julius Caesar for the Schools Department, and recently produced a ninety minute drama for Festival which will be seen on Television in the Fall. July 1st will mark Mr. Roland's tenth anniversary in Canada. In England, prior to coming to this country he was a Director and a leading actor and played at Stratford and Glyndebourne and was a member of the company at the first Festival at Pitlochrie. Angel Roland also had a successful career in England before coming to Canada where she has appeared in film and television, with the Museum Children's Theatre, and with last year's Kawartha Summer Theatre Company.

"The First Falls on Monday" is an imaginative suggestion of what took place between June 22nd and June 24th, 1867. That week end John A. Macdonald was prepared to admit defeat in forming a Government and withdraw as Canada's first Prime Minister. There is no record of what actually took place prior to the Monday morning when the problems cleared themselves, but Arthur Murphy offers one which involves Frances Tupper, wife of Charles Tupper of Nova Scotia in an intrigue, which had it succeeded, would have changed Canada's history.

NOTICE

The owners of all properties are responsible for the destroying of all noxious weeds on their property before the weeds come to seed, which is generally before June 30th.

Failure to comply with this regulation may be costly to the owner, as laid down in Regulation 565, The Weed Control Act.

HE MAKES NEWS

Our good minister, Rev. Jim, of the United Church Charge here in Minden, and a weekly columnist for the brightest rag in the country, makes news everytime he turns around.

He hit everybody with the "New Morality" when he first came to town, this shook a few in the comfortable pews, little did they know what was next. The "Coffee House" play made the rumours fly, and a few people blinked once again. He shouted love, love every week from the pulpit, one almost thought he was in Yorkville with the Hippies and the kooks. His next move was to shatter the concrete belief which everyone held tight, the commandments - he said they were dead. Now in most small communities that statment might have been the last straw, but the people here seem ready for more.

He explained to me once, that he still wasn't getting to the people who needed it most, so his next move was a real live coffee house held each week at the Oasis Restaurant. Here again he found the people who needed the burdens lifted-off their backs were not coming in any great numbers. At this, he decided to take the bull by the horns and hold his coffee house routine, where people are relaxed and feel free to talk about their problems, and where he might score more points towards their happiness - the pub.

Now just imagine a minister in a small community twenty years ago, or even five years ago, holding a spiritual conflagration among the smoke and the bottles of booze. Well, Rev. Jim is accomplishing just that, the gathering is open to everyone who likes their spirits in or out of a bottle, in the comforts of their second home.

When we wrote a few weeks ago about the church people going into the pubs, and the places most likely they could lend a hand, little did we know our minister would beat the drum, and lead the way, into Minden's night life, till the little hours of the morning. We said to Rev. Jim, "this thing your doing is a little risky for a minister". He answered, "the people here are used to me now, I'm rather mild, what they need is someone, who will keep them stirred up".

We are not so sure he is right, Rev. Jim is still very much talked about, and of course this means that religion is very much talked about too. He has made much progress and has given the people something worth thinking about. He has stirred them to the point where they are asking many questions, which shows the cowwebs are starting to clear.

He is right in step with todays young teeny-boppers, hippies, and the rest of the clan, who have been demonstrating in most of the cities in North America recently that if everyone would just love one another, their wouldn't be any wars. Believe me, we are not in favour of the long hair and the beards, but you have to give them credit for their non violence philosophy.

We don't know what will be next for Rev. Jim, but don't be surprised if it is not a "Love-in" maybe held at the mance.

FIRE TAKES TOLL OF LIFE AND PROPERTY

The annual fire marshal's report shows \$60,225 damage caused by 33 fires in Lindsay last year compared with the five-year average of \$699,998 damage from 38 fires.

Other statistics in the report show that one person died last year in a fire in Haliburton; four persons were injured in three fires in Victoria County; five persons, two of them children, died and three were injured in seven fires in Northumberland and Durham Counties; three persons died and 20 were injured in 15 fires in Ontario County.

Two fires in the area were listed as large fires.

Damage of \$101,835 resulted from a blaze at Camp White pine in Dysart Township on November 8 and the Rockland House at Bobcaygeon sustained \$115,107 damage on November 18.

In the breakdown of fire losses in municipalities, Anson, Minden and Minden Township had 11 fires with a total damage of \$19,516, over \$54,000 less than the five year average.

Bancroft had five fires, resulting in \$974 damage in 1966. The average over the past five years is seven fires and \$7,040 damage.

Cardiff Township was very close to its average fire loss over the past five years. Damage last year from six fires was \$23,765 compared with an average of six fires and \$27,914 damage.

Damage from fires in Durham County last year was almost negligible. Three fires resulted in \$97 damage to an average of six fires and \$1,456 damage.

Damage from fires in Dysart Township and area was more than double the five-year average. Damage of \$115,755 resulted from 20 fires compared with an average of 16 fires and \$54,205 damage.

Fire damage in Eldon Township was about average. There were seven fires, resulting in \$17,159 damage. The average is five fires and \$17,837 damage.

Damage in Fenelon Falls was greatly reduced from the average. Damage from three fires during the year was \$340, compared with an average of nine fires and \$5,973 damage.

Total damage of \$14,553 resulted from eight fires in Mariposa Township compared with an average of \$35,379 damage from nine fires.

Omeme had two fires and \$23,438 damage compared with an average of three fires and \$29,055 damage.

Fire damage in Sutton and Uxbridge was up last year. Sutton had four fires and \$3,522 damage compared with an average of five fires and \$1,457 damage. Uxbridge had four fires, which is average; but damage last year was \$79,287 compared with the average of \$19,382.

SIR SANFORD FLEMING CAMPUS

Colleges of Applied Arts and Technology, Ontario

Once it was enough just to graduate from High School, as you — or a young person you know — may be doing this month. But High School alone is no longer enough — not in today's complex world where only the well educated can fill the best jobs, earn the best salaries, and enjoy the fullness of life that the pursuit of knowledge for its own sake can provide.

This year about 1,500 young adults will graduate from High School in this area, but less than one in ten of these will go on to university or enter professional training in September.

What will happen to the rest? Many will join a growing number who graduated last year, or ten years ago for that matter, who have found that they do not have the necessary education to achieve their fullest potential. Most of these young citizens, recent and not so recent graduate alike, are capable and intelligent, and they deserve an opportunity to develop their special talents and learn the skills that will be increasingly important in the years ahead.

These are the people the Ontario Government is trying to help to a better future by establishing Sir Sandford Fleming

Campus of the Colleges of Applied Arts and Technology in this region. The campus, which will open its doors in temporary quarters in Peterborough on September 11th, does not belong to any specific city, town or district, but rather to a wide region of Central Ontario. Its courses will be designed to meet the needs and preferences of students living within an area stretching from the western edge of Victoria County to the eastern boundary of Hastings County, and running north from approximately Highway 7 to Algonquin Park.

Normally, High School graduation will be the minimum entrance requirement, but this need not bar the way to the person who "dropped out" of High School along the way. Mature students over 19 years of age who may not have completed their High School training will be considered on their merits.

If you are interested in obtaining further information about Sir Sandford Fleming Campus, please fill in the coupon on this page, and mail it to our office in Peterborough. Formal admission requirements is Grade 12 of a four year or five year program.

**ONTARIO BEGINS TRANSITION
TO NEW SYMBOL TRAFFIC
SIGNS**

Adoption of symbol traffic signs by Ontario was announced recently.

The signs conform to international standards, and use symbols and illustrations to convey their message. When old signs need replacing, the new signs will be used in an increasing number of cases on both provincial and Municipal streets and highways.

Gradual transition to the new signs is expected to extend over some years.

"The greatest possible uniformity of traffic signs is clearly desirable for the sake of safety as well as the convenience of motorists," said an Ontario Department of Transport official.

"It is equally desirable that such signs be recognizable at a glance, and that they be clear to all drivers. To meet these aims, the best signs are those that convey their message by symbols rather than words."

COMMENT

**BY R. GLEN HODGSON, M.P.P.
COMPENSATION FOR INJURIES
TO PERSONS AIDING PEACE
OFFICERS**

An act to provide compensation for injuries received by persons assisting peace officers was introduced this week by the Honourable A. A. Wishart, Attorney General.

The bill provides for compensation for injuries to persons while assisting police and for compensation for the dependants where death results.

The proposed Law Enforcement Compensation Act sets up a board to adjudicate and award the compensation, which will be made from a fund set up by the Legislature.

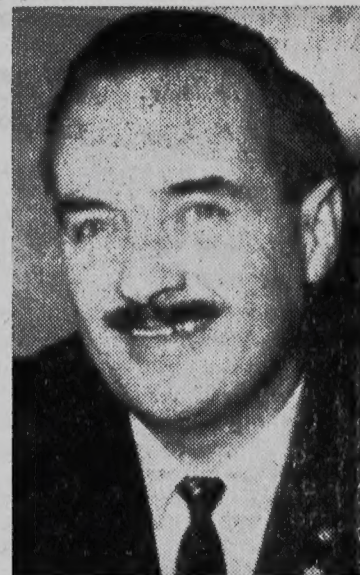

Under this Bill, payments will be limited to a lump sum of \$10,000 or instalments of \$500 a month.

The proposed Law Enforcement Compensation Board will consist of three to five members appointed by the Provincial Cabinet. It will be empowered to prosecute civil actions toward recovering some or all of the payments from persons involved.

This is another of the Government's measures which was forecast in the Speech from the Throne on January 25th last.

**What's
It All
About ?**

by REV. IIM

**THE EIGHT DAY. — THE CHRISTIAN PAVILION
A LOOK AT EXPO - 67.**

For me the centre of Expo is the Christian Pavilion. Thus from this Pavilion we look at Expo in a general way. The Christian Pavilion is an achievement in itself for here 95 per cent of the Christian population has said "In our differences we are united."

THE ENTRANCE.

AT the entrance we see a garden representing the creation of God. And saying "it is good." The thought for me is God created out of Nothing and not even matter existed in the beginning.

ZONE ONE.

Zone one shows the image of man as he is. He has been created free. He too has the power to create, but not out of nothing. He uses his talents and the substance given by God. The Pavilions throughout the grounds reveal on a grand scale the achievements of man in this regard. To see the countries of the world display their wares in one place, causes us to swell with pride. "Look what we can do. We indeed are gods" we say. "We are creators." We look and say "It is good."

ZONE TWO.

Each country is anxious to show its achievements in a competitive way, which means that they reveal their best. The result is one gets the impression of the great evolutionary process of man's creative ability for a better world. Zone two in the Christian Pavilion by means of atmosphere, pictures, and a movie destroys this image of ourselves. We see that we are aggressive, selfish, to the point of self destruction.

ZONE THREE

The love of the creator is now being revealed. He has not left us to self destruction. He is with us. We don't see this message in the usual way of seeing Jesus in a manger or his life in his own country, or his resurrection and appearance to his followers etc. The Pavilion rather reveals the good news of God's love by texts and pictures of people of this day. Children, young lovers, marriage, and people in many walks of life and loving in our world today, is shown. To my mind this is a good way to reveal the presence of Christ because he is not only someone of the ancient world, he is here to-day even unto the end of the world. And love is not some sort of something floating in the air but rather something rooted and grounded in all our hearts. God's presence in his world fans this love into existence and our world is saved from self destruction.

THE EIGHT DAY

This is the theme of the Pavilion. It means in and through the love of God we work and hope for a better world. It means that it is the day after a full week, which is the hope of final judgement and the fullness of his love. It is a term used since the beginning of the Christianity. It means a new creation.

The Church will sponsor special music by Shirley Colliss and Norma Burke this Sunday.

KINMOUNT BOWLING LEAGUE BANQUET

The Kinmount Bowling League completed their 1966-67 Bowling Season with a banquet on Wed. May 31st in the Royal Canadian Legion Hall.

After the banquet the trophies were presented to the winners.

The Rogues were presented the Fenelon Lanes Trophy for finishing in first place. The members of the Rogues team were Captain Marian Austin, Brian Hamilton, Ruth Wight, Marian MacDonald, Myrtle Morrison, Mary Wright.

The Sure Shots were the winners of the play-off and received the Wayne Scott trophy. The members of this team were Captain Noni Campbell, Fred Simmons, Dave McNamara Sr., Bessie Sedgwick Gladys Silvers, Ron Campbell.

Jack Phillips recieved a trophy for having the highest average as a shift bowler.

High single in the men's went to Ricky Mansfield and high triple to Brian Hamilton.

The women's high average, high single and high triple was won by Marian Bacon.

Mrs. Joyce Godwin won a trophy for the most improved bowler.

The executive for 1967-68 are as follows: President, Joe Rettie; vice pPresident, Pearl Byrne; Secretary, Pat Fell; Treasurer, Marian McDonald. The new president asked that each bowler play his part in the next season.

TORONTO SCENE OF WORLD SAILING TOURNEY

The World Lightning Sailing Championship set for August 14 to the 19 on the open waters of Lake of Lake Ontario has 15 entries each from Europe and South America, 16 from the U.S., two each from Canada and Australia, and Japan and Siam each with one.

FOREST FIRES

As of May 30th, 466 forest fires have occurred in the Province of Ontario. In the Lindsay District 38 fires burned 143 acres. The present (June 1) fire hazard rating is extreme. All burning permits are cancelled, and everyone is requested to exccercise extreme caution when in the woods.

**THINK!

SPORTS WITH BOB BEENEY

Usually in this column I write about Minor Hockey, Softball, Curling and other major sports but this week I thought that perhaps I would delve into the recreational pastime of shuffleboard. Unfortunately (or should I say fortunately) the only boards available to play on are situated in the two inns that we have on either end of the main street. In Haliburton the Canadian Legion branch is graced with one and very keen compition is in order when the shuffleboard fellows become active.

In Minden the four shuffleboard courts in the two hotels are kept busy most of the time. Every evening the same groups enjoy themselves with a cool brew while trying to win the games.

There are numerous citizens in the area that do not frequent these establishments and therefore are denied the fun and enjoyment that can be found in playing a game or two. However the people that do play regular are ardent fans of the game and many of them have mastered the skill of the game.

A few of the better players in town are Dan Hogg, Roy Sawyers, Alf Richardson, Dan Gartshore and so many others that I could fill a page or two just listing them.

The game, to those who are not familiar with it, is similar to curling and takes a great deal of skill to master. The board is well waxed and the stone travels very fast with even a minimum of push. The board is divided in sections where points from one to four can be gained until the total of twenty one is realized by one team or the other. Unfortunately the competition in tour is just between individuals and there isnt such a thing as an organized league. Although I have yet to hear many demands for one. Some fellows have mentioned that they might be interested in competing in such a league.

Te possibilities of such a league could be good considering that team could likely be picked up from the two hotels in Minden, the Minden Rod and Gun and perhaps the Haliburton Legion.

Many fellows boast that they can down anyone in the game so this would be a good way to settle the issue.

If some person or merchant would donate a trophy the groundwork could be laid to start a competition either this summer or at the latest in the fall.

ART EXHIBITION TO BE HELD IN HALIBURTON

The Highlands of Haliburton Art Group meeting last week-end decided to hold their Centennial Year Exhibition at the Secondary School auditorium in Haliburton on August 6th and 7th, it was announced by Mr. C.D. Ferguson, Chairman of the Art Group.

The committee lauded the school board for their generous offer of the school Auditorium for the Exhibition.

Previous exhibitions have been held at the Carnarvon United Church Hall drawing over a thousand in all of the two day showing in the past three years, said Mr. C.D. Ferguson. The committee felt that it was important to move the exhibition to various areas in the Highlands from year to year, to try to stimulate a participation in, and an interest in the Arts and Crafts, in all sections of the Highlands.

The Committee further decided to set up a junior section of the arts and crafts for the younger generation up to and including the 16 year old age group.

The line drawing contest last year drew an excellent response from the students in the schools of Haliburton.

This year, in setting up the junior section the committee hopes to broaden the participation among the youth of our community.

A committee composed of Mr. J. Gauthier, Mr. Karle Hanke, and Mrs. C. Finn, will judge the entries, and special merit awards will be issued.

The following persons were elected to the Highland of Haliburton Art Group executive: Chairman, C.D. Ferguson. Vice Chairman, Mr. R. Moddel. Secretary Mrs. R. Munroe. Treasurer, Mrs. M. Harrison. Publicity, committee, Mr. J. Gauthier, and Mr. B. Mills. Handicrafts, Mrs. C. Finn. Mrs. Nevitt - Mrs. and Mr. Cook. Mrs. M. Ferguson.

The Exhibit committee - Mr. J. Gauthier, Mrs. R. C. Coneybeare, Mr. K. Hanke.

REALLY WSINGS

EXPO'S BARNYARD

Mod dancing is "in" at EXPO 67's Man the Provider theme pavilion. For the barnyard animals in the children's farm, that is.

For children who have never seen chickens go-go dancing to the strains of piano music banged out by a rabbit, there are surprises in store.

The whole barnyard is groovy. A pigeon flies out of its cage and rings a bell, and a duck slides on his backside down a ramp into the water.

The piano-playing bunny can hardly come across with Saint-Saens' "Carnival of the Animals", but whoever heard of a hep chick doing a frug to square music?

The animal act demonstrator holds up a card on which there are dots of various colors. "Judy," the demonstrator calls. "Come out and show me the green dot." A white hen strolls out of her cage pecks the green dot and returns.

"Jump through the loop, Jack", he tells the rabbit.

"Donald. . . find the fish." A duck slides down a ramp into the water and dives for an artificial fish at the bottom of a transparent pool.

Alfred, the pigeon, is summoned. He walks out of his cage, looks around a bit, and flies to a tiny bell and rings it.

The animals were trained by Grant Evans, of Animal Behavior Enterprises, Hot Springs, Arkansas. Three months are required to train the animals.

Evans' theory is to train them to perform acts similar to their normal functions. The go-go dancing chicken shuffles its feet on a board as it would normally do in the poultry lot. The rabbit paws through leaves and grass to feed himself in his natural environment. Learning to locate a dot and pecking for identification is reasonably natural for a chicken which must peck to gather food. All the animals are rewarded with food after performing their acts.

Man the Provider, which is located just beyond the USSR pavilion on Ile Notre-Dame, is the largest of Expo's theme exhibits. It is largely devoted to the problems of adequate food production in a world of rapidly growing population.

We're all enjoying the biggest, busiest, happiest, most exciting year long celebration the world has ever known!

The Centennial is unique! It's a once-in-a-lifetime opportunity for all of us to celebrate being Canadian... to show our pride in this magnificent country of ours.

We're celebrating in hundreds of ways — with tributes to our past, anticipation of our future and complete enjoyment of the present.

The Centennial Commission, Ottawa, Canada.

Are you making the most of 1967? Find out about all the Centennial projects and events you can take part in from now until the end of Centennial Year.

We're having a wonderful, exciting, unforgettable year in 1967, as Canada celebrates the hundredth anniversary of Confederation.

ONTARIO HYDRO'S NEW REGIONAL MANAGER

I. Carl Ingimundson, a man with wide experience in the Electrical industry, assumed the duties of Manager of Ontario Hydro's Georgian Bay Region June 1, 1967.

Mr. Ingimundson is a native of Selkirk, Manitoba, and a graduate in Electrical Engineering of the University of Manitoba. He joined Ontario Hydro before being named Executive Assistant to the General Manager in 1960.

In 1961 he was appointed Manager of Hydro's former East Cen-

tral Region with offices at Port Arthur. Mr. Ingimundson, who immediately prior to joining Hydro, was Vice-President and General Manager of Commonwealth Electric Corp. Ltd., is a member of the Association of Professional Engineers of Ontario. He was a member of the Port Arthur Golf and Country Club, and as long as a long time Rotarian, active in the Port Arthur Rotary Club.

Mr. and Mrs. Ingimundson, who now make their home in Barrie have one son, David of Regina, and two daughters, Elaine (Mrs. Hood of Barrie) and Sylvia (Mrs. Teachout of London).

FIRE DANGER EXTREME DURING WEEK

Lindsay District Field Headquarters were busy during the past week extinguishing fires occurring in the district and arranging for the transporting of trained Crew Bosses, power pumps and thousands of feet of fire hose to the hard pressed Northern Districts. Within a few hours of receiving the call for assistance, experienced fire fighting crew bosses were being flown to the threatened areas, and other crew bosses were placed on standby, ready to leave on a minutes notice.

Meanwhile, six forest fires were extinguished in the District at small acreages, the largest being 1.5 acres in size.

A. E. Walroth,
District Forester.

NEW SIGNS FOR HIGHWAY WORKERS

Wide use has already been made of curve and turn signs that conform to the new standards and these have proved their worth in both urban and rural areas.

Among new signs, one shows a car skidding. This will replace "Slippery When Wet" signs. A picture of a helmeted man with a shovel will replace "Men Working" signs. A sign showing a car on a sharp decline will replace "Steep Hill" signs.

In the introductory stage, the new signs will be accompanied by a plate carrying the appropriate legend. These will be discontinued as time goes on.

The signs fall in three categories: regularity, guide, and warning signs. Many of the regularity signs, such as stop, yield and

POLICE REPORT

The OPP report from Minden Detachment reveals that three property damage accidents with damage estimated to be \$1025.00 and two personal injury accidents with an estimated \$3100.00 damage and eight persons injured were investigated during the week of May 28 to June 3rd. Fifteen charges were laid under the Highway Traffic Act and four under the Liquor Control Act. Patrols of 2800 miles of provincial and county roads were also conducted during this period. Criminal investigations totalled seventeen, broken down as follows: five thefts, six disturbances, three break and enters and three damage to property.

In the next several weeks we are going to endeavour to refresh your memory regarding safe boating in hopes that we will have an accident free summer on the water. These laws apply to pleasure craft and the first one we shall cover will be the law regarding equipment and is as follows:

Every vessel not over 18 feet in length SHALL carry: a) one approved small vessel lifejacket or approved life saving cushion for each person on board, b) two oars and rowlocks or two paddles, c) one bailer or manual pump, and d) if equipped with an inboard motor, permanently fixed or built-in fuel tanks or a cooking or heating appliance that burns liquid or gaseous fuel, one Class B fire extinguisher.

"REALTOR" SERVICE FOR SATISFACTION

Perhaps the most efficient tool of the Realtor is Multiple Listing Service. Through this Service, groups of Realtors are able to pool their resources to ensure a wider range of customers when you're selling a house, a wider choice of properties when you're buying one.

It saves time, money, and headaches. And you also have the invaluable help of your Realtor every step of the way.

If you're buying or selling, do it the logical way: see a Realtor, a professional in real estate who subscribes to a strict Code of Ethics as a member of the local board and of the Canadian Association of Real Estate Boards.

LINDSAY VISITORS VIEW FIND OF ANCIENT SKELETONS IN U.K.

Shown here with an archeologist from Birmingham University, right, is Mrs. Ed Harding of Lindsay, accompanied by friends, residents of Fladbury, Ireland Mrs. George Mills and her daughter Dorothy.

Recently during a visit to Ireland, two visitors from Lindsay Antiques were told one skeleton was buried east to west, indicating a Christian burial, while two others were north and south, possibly indicating a pagan burial. They were told in 1953 one was found buried in a crouching position in the area. A few years later pottery was found in almost the same spot, and scientific tests dated the bones and pottery around the third and fourth century.

DRESS REHEARSAL FOR DROWNING

The Red Cross has come up with a unique approach to teaching water safety. It's called Survival Swimming and it's a brand new course in the water safety educational programme.

The idea is that if you can go through a simulated drowning situation and learn what to do to save yourself, you'll know what to do when the real thing happens.

In more ways than one, it's like a dress rehearsal for a drowning because most of the items in the course require the candidate to wear light clothing instead of a bathing suit.

For example, there's the forward Roll Entry into the water. This is done with clothes on and

the idea is to learn what it's like to land in the water in an awkward position, not knowing which way is up. Learning how to orient yourself quickly in a situation like that helps you to overcome panic and drowning.

The courses are conducted under the competent guidance and protection of Red Cross-trained instructors and will be available in most communities this summer.

Survival Swimming is for swimmers and non-swimmers alike. The course can be taken entirely on its own or as part of the regular Red Cross Swimming programme after the Junior Level.

May 28 to June 3 is Red Cross Water Safety Week in Canada. This summer, we suggest you learn to survive, and stay alive.

21 YEARS OLD?

When you turn 21 you are no longer covered by your parents' Hospital Insurance. You must take out individual membership within 30 days. Get your application form at a bank, a hospital, or the Commission.

NEW JOB?

To keep insured follow the instructions on the Hospital Insurance "Certificate of Payment—Form 104" that your present employer is required to give you on leaving.

NEWLY WED?

The "family" Hospital Insurance premium must now be paid to cover husband and wife. Notify your "group" without delay or if you both pay premiums direct, notify the Commission.

LIVE BEAVER TRAPPING

Conservation officers in the district are presently engaged in live beaver trapping operations for two important Centennial year projects. To date eight live beaver have been captured and are being held in captivity near the village of Kinmount.

Two pair of these animals will shortly be flown by jet aircraft to Scotland and will take up residence in the Edinburgh Zoological Gardens, a gift from the Ontario Government.

A third pair of beaver will be transported to the Cincinnati Zoo in the United States, a present from the Kiwanis Club, Toronto.

Several additional animals have also been captured and will be displayed at the Department's exhibit at the Canadian National Exhibition this summer.

OLD AGE SECURITY AND GUARANTEED INCOME

Canadians celebrating their sixty-eight birthday during centennial year should make application to receive their old security pension at least six months in advance of their birthday.

Payment is not automatic. Application must first be made. Forms are available from post offices or by writing to the old age security office in provincial capitals.

Help in preparing the application form for the new Guaranteed Income Supplement is as close as the nearest old age security, Canada pension plan or Income tax offices.

LIZA JANE

DEER RANGE IMPROVEMENT WORK

Field inspection of deer wintering areas are now underway in many townships of Haliburton and northern Victoria and Peterborough Counties. This work is preparatory to fall improvement work to increase the amount of browse and cover available to deer during coming winters. The actual work will commence to improve these areas around October 1st, 1967, and will continue all winter.

BEE CAUSES CAR ACCIDENT

Damage estimated at \$375 resulted Friday night on Hwy. 519, two miles north of Lochlin when a car driven by Henry Newson, 69, of Donald went out of control and crashed into a hydro pole.

Police said the driver, who had been westbound, said he was bothered by a bee.

Minden OPP Constable Douglas Heath investigated.

CALIFORNIA CUTIES NOVELTY SOFTBALL TEAM

TO PLAY HERE ON JULY 2ND.

When Liza Jane struts onto a softball diamond, it isn't the field that sparkles but the owner of the CALIFORNIA CUTIES who is playing his (pardon us, her) 19th Season with the world famed novelty team.

Liza Jane had an idea during a tour with the Air Force during World War 2 and since that time has developed the idea into a full-time traveling job. When not playing softball, Liza Jane is hustling a basketball team of similar features - namely, a men's novelty team of outstanding players cavorting in ladies garments.

Liza and the midget Beulah are the lone members of the team still playing for the club after 19 campaigns and both look forward to each new season with the eagerness and anticipation of the newest rookie.

Liza Jane has moved from the pitching mound to first base most of the time these days although she will still take a turn on the hill when the occasion demands.

The midget Beulah is one of the phenoms of the club, doing little to aid the cause in the outfield, but getting on base virtually every time she appears at the plate. Last season, for instance, Beulah drew 250 walks or free passes to first base and any umpire that crosses her had best look to his laurels and a fast pair of shoes.

of feet for a quick exit.

The CUTIES come to town to face the local team on July 2nd at the Minden ball park.

RICE LAKE FISHERIE SURVEY

On May 30th, the netting crew commenced trap-netting operations on Rice Lake in the second year of the survey on this Lake. Four nets were set in the west end of the lake, near Bewdly, from which locality the crew is operating.

To date, the crew has handled the following numbers of game fish: Walleye, 356, Largemouth bass, 248, Smallmouth bass, 17, Maskinonge, 1, totalling 622.

In order to obtain this number of game fish, the crew has also handled "thousands" of sunfish, rockbass and bullheads, many of which are very large for the respective species. The presence of such good numbers of large-size "panfish" leads to the speculation that a great deal of sport can be obtained by fishing for these species with the lightest tackle possible. When large, and caught on light tackle, the sunfish and rockbass especially, can give a fight that, pound for pound, easily equals the pugilist's black basses.

Great Ontario Adventure Vacations

M.V. Notre Dame de l'Esperance at Moosonee

The Trail to Arctic Tidewaters

On an Arctic Tidewater Adventure Vacation, to Moosonee and Moose Factory Island, you'll shoulder with Indians, Jimos, traders and prospectors from a thousand miles around Hudson Bay. At Ontario's last frontier, you'll taste the flavour of a pioneer past and sense the prospect of a nation's great future.

On your way from North Bay to Cochrane—departure point for the fabled Polar Bear Express—you can swim, fish and boat in Ontario's most beautiful tree-fringed lakes, visit world-famous gold mines and gigantic wood-pulp mills, scratch hopefully among Cobalt's abandoned silver workings. Comfortable accommodation and well-serviced campsites are always near, along smooth, easily-travelled highways.

An Arctic Tidewater Adventure Vacation will thrill your family to their very bones. Would you like to have more information? Just mail the coupon, today.

Hostesses Joan Bell of Toronto (left) and Laird Campbell of Oakville grace a huge slab of granite bearing the name "Ontario" and pavilion's symbol, at entrance.

SCHOOL IS CLOSED EVERYONE CAN GO TO CAMP

As the end of another school year approaches, many of Ontario's youngsters are already excitedly making plans to attend summer camp.

Children everywhere respond to camping, and the crippled child is no exception to this attraction.

By mid-June, the Ontario Society for Crippled Children's annual summer camping program will again get under way.

This seasonal program has continued without interruption since 1937, at which time the Society acquired its first camp: Blue Mountain Camp, near Collingwood.

To-day, thirty years later, the Society owns and operates five camps specially designed to provide more than 1200 crippled children with a happy and healthful two or three week vacation. This part of the Society's program for crippled children is just another example of the facilities and services made possible by your support of the annual Easter Seal campaign conducted by your local Easter Seal service clubs.

The crippled children's camp serving your area is Northwood Camp on Lake Sesekinika, north of Kirkland Lake.

Camp Director for the season will be Miss Doris Linscott, Reg. N., Assistant Supervisor of Camps for the Ontario Society for Crippled Children. A graduate of Brantford General Hospital, Miss Linscott holds a diploma in teaching and supervision from the University of Toronto. Her professional capacity has been greatly enhanced by ten years service with the Royal Canadian Air Force and a number of supervisory posts.

Under her direction, an active and extensive program will be conducted with the help of experienced staff counsellors recruited from various colleges and universities across the province.

WOODS, WATERS AND WILDLIFE

Orchids are sometimes called the wildest of wildflowers. They seem, strangely, to resent interference with their wild freedom. They have practically never been grown from seed and few of them are able to survive transplanting. Their beauty is best enjoyed where we find the plants growing.

Orchids are one of the largest families of flowering plants on earth. They grow in all parts of the world except the polar region. The greatest number of species is found in the tropics, but many occur in the temperate zones. According to the Federation of Ontario Naturalists there are about sixty species of wild orchids in Ontario.

In Ontario, orchids grow in many types of locations. They are found in sphagnum bogs, marshes, wet meadows and fields, along the banks of streams and rivers, in damp evergreen forests, and in dry hardwood and pine

forests.

Some orchid plants are only a few inches high; others grow to three feet in height. Some have six or seven leaves; others have no leaves. Certain orchids have large broad leaves; others have small leaves that lie flat on the ground. The flowers of some orchids are large; those of other orchids are so small a hand lens is needed to see their beauty.

Probably the best known of all our orchids are the Lady's-slippers — although some people who know them may not be aware that they are orchids. They are the largest and most showy orchids, and are considered the most ancient of this family. The name is derived from the resemblance of the lip to a slipper. The most widely distributed Lady's-slippers in Ontario are the Yellow, Stemless or Pink Moccasin-flower and the Queen or Showy.

The Queen or Showy Lady's-

slipper is one of our most striking orchids. The plant is large and may attain a height of thirty-six inches. The leaves, from three to seven in number, are large, oval, heavily ribbed and, like the stem, covered with bristly hairs.

The lip colour is from rosy-pink to purplish-red, though sometimes white, and has clearly-marked vertical lines. The petals and sepals are white; and in combination with the pink lip produce a very handsome flower.
